SMSC in Religious education

Spiritual

Spiritual Development in Religious Education at Heronshaw school allows students to experience and search for meaning and values by which we live. In learning about different religions and why people believe, the children will have the opportunity to learn from their experiences, to reflect on and interpret spirituality and their own lives and discuss and reflect on events and show that they are part of a community.

Moral

Our Religious Education supports moral development by encouraging children to learn what is right and wrong. Discussing the morality of different stories and why they are an important part of different religions and cultures.

Social

Social development is supported in our teaching and learning of religious education by providing children with the opportunity to learn about the world around them, by learning about the beliefs and practices of other religions and faiths.

Cultural

Religious Education supports the cultural development of a child by exposing them to a wide range of religions, cultures and practices. Children learn about a range of celebrations and explore traditions from different cultures.
